Quarterly Newsletter - Issue 67 - WINTER 2023

## All Aboard Lindsborg's Holiday Express

For many, trains evoke powerful emotions. Especially at the holidays, we think of those who traveled by train to see friends and family, carrying along packages and presents. I think of my great-grandmother, a young Native American, who took her four children on a train from Oklahoma to Arizona to be near her husband who was ill and seeking treatment there, only to return to the reservation a widow only a short time later to raise her children alone. For others of us, memories of growing up include a model train around the Christmas tree. I remember how my father would set up the train, always struggling with the tracks and making them connect without derailing the engine during the test run. Once we worked out the kinks, I always got to place the caboose. Maybe when you see a model train today, it reminds you of simpler times. But were those times actually simpler, or is it just the egg nog (or glögg) nostalgia talking? For many people, those times just seem simpler than our lives today because someone else paid the bills, fixed the cars and appliances, and made all the hard decisions!

The Train Conductor in the Caldecott Medal-winning book, *The Polar Express*, gathers up all these emotions and more when he says, "One thing about trains: it doesn't matter where they're going, what matters is deciding to get on."

This year, our little city will become a depot of sorts, and we invite you to get on board for "Lindsborg's Holiday Express." Beginning Nov. 11 with the Holiday Open House downtown, Lindsborg will open its doors to those near and far for weekly seasonal events. Experience the magic of the skies when you join us and the Kansas Cosmosphere & Space Center for a special event at Coronado Heights on Nov. 18, featuring an educational presentation by Lindsborg's own National Geographic photographer Jim Richardson. Don't miss the Dec. 2 showing of *The Polar Express* at the J.O. Sundstrom Conference Center on the evening of the Snowflake Parade. Bundle up the kids in warm jammies & robes, bring pillows & blankets and your appetite for hot cocoa, and experience the magic of the season together with friends (registration required). Embrace the light brought by St. Lucia on Dec. 9 and enjoy an old-fashioned Christmas in Heritage Square, including a "Mayor's Christmas Kaffe" in the historic train depot at 6 p.m. (*see below*)

Check out the calendar on the CVB page and plan to come to the events that inspire you. "Lindsborg's Holiday Express" will be a magical ride through the season. We invite you to come aboard!

*Then*

*Now*

*By Kristi Northcutt, City Administrator*

Lindsborg's historic train depot was built in 1879 and still stands as part of the Lindsborg Old Mill & Swedish Heritage Museum.

## ANNOUNCEMENTS

### City Council elections

One seat will be expiring Dec. 31 in each of the four City Council wards (4-year terms); additionally, the Mayor's term (2-year term) will expire. Official election results were not available at press time; below are candidate-elects based on unofficial results:

**Ward 1** – Rebecca Van Der Wege;

**Ward 2** – Kirsten Bruce;

**Ward 3** – Andrew Smith;

**Ward 4** – Joshua Swanson; and

**Mayor** – Clark Shultz.

Official results will be announced on the City's Facebook page and website. The newly elected Mayor and Councilmembers take office the first Monday in December following the election according to Kansas Statutes.

Thanks are extended to City Councilmember Emile Gallant (Ward 4) for his years of service.

### Staff changes

Since our last publication, the following staff members have joined the City: Officer Mike Adams, Lindsborg Police Department and School Resource Officer (SRO); Gavin Soukup, Electric Lineman; and Camden Meeks, Streets Maintenance. Please welcome them when you see them around town!

### Register your pups

Don't forget to renew or register for a dog license. The current rate to license a dog is \$5 for those that are spayed or neutered and \$25 for those that are not. The Lindsborg Police Department (LPD) recently acquired a microchip reader that can be used to find the owner if they come into possession of a lost dog that is microchipped. Residents may purchase a one-time licensing fee for microchipped dogs for \$35 and a lost tag/replacement fee of \$5. Call City Hall at 785-227-3355 for more information (or feel free to stop by).

### Online bill pay is available

Please visit [lindsborgcity.org](http://lindsborgcity.org) for a link at the bottom of the website's homepage that will take you to the online bill pay center. You may also call City Hall at 785-227-3355 if you have any questions regarding online bill paying.

**All aboard to explore holiday fun in Lindsborg!**

For a list of holiday activities and events, follow the Christmas in Lindsborg Facebook page or [VisitLindsborg.com](http://VisitLindsborg.com).

**Lindsborgcity.org**  
is always open.

Utility bill payments, event calendar, permits & more.

## Beautification to Viking Valley Playground

Viking Valley Playground at Swensson Park is receiving much needed updates this fall and winter. The Parks Department is diligently working on revitalizing and improving the playground. The playground was constructed in 2006 with the help of community support, and was a cooperative effort that included many donations, children's input, local builders, and volunteers. Throughout the years, small repairs and incremental improvements have been completed. However, this year several items are being updated and a new amenity is also being installed. This new installation is a green, powder-coated steel pedestal table. It includes seating for three and one ADA accessible side. It also possesses an overhead sunshade. This amenity is maintenance free and provides a seating/table/shade combination in the playground.

The new improvements and maintenance include:

- Fresh paint to bring back the previous paint details in the playground;
- New aluminum post caps;
- New art murals; and
- New seating with table and shade structure

Another addition to revitalizing the playground is paint touchup. A local artist is volunteering her time to paint the playground. The playground's decorative paint elements have begun to fade, but there are no changes being made to the theme of the elements. This is a welcome addition to freshening the aesthetics of the playground.

## Lindsborg downtown tree plan

Do not be alarmed, a couple of tree removals will begin to take place in the next couple of months.

A notable feature of the downtown area is the shade one receives while strolling down the sidewalk. However, there is maintenance that needs to be performed to continue to enjoy all the benefits of a tree lined street. This fall, the Parks Department will start to implement a plan to address the issues of our downtown pit trees. Below are items taking place and the corresponding timeline of events.

- Two tree removals; in front of Small World Gallery and Crown & Rye. – Fall 2023
- Replant with correct specified and recommended trees. – Fall 2023/ Spring 2024
- Cut back and fit tree grates, as necessary. – Fall/Winter 2023
- Inspect electrical boxes and conduit for safety and operation, relocate boxes, as necessary. – Winter 2023/24
- Inspect and plan for future tree removals. This is based on size, health and potential damage being caused. – Winter 2023/24
- Prune all trees for clearance and health. – early Winter 2023/Spring 2024

The following problems are caused by the large trees. The solutions are also listed.

- Clearance for walking and buildings-prune to appropriate clearances.
- Tree grate damage-prevent trees from reaching a certain trunk diameter. A recommended planting cycle of around 15-20 years per tree, depending on the species.
- Concrete damage-prevent trees from pushing against grates.
- Electrical boxes and conduit damage-cut grates so that the box is located further away from trunk. Inspect all boxes and conduit to ensure safety and operation.

### Winter reminder: Tree clearance for sidewalks

Just a reminder that there is city code for sidewalk clearances. The owner of a property is responsible for trees that overhang a public sidewalk. There needs to be at least an eight-foot clearance height over public sidewalks. This ensures safe and able travel for foot traffic. If you are pruning trees, the best time to prune is in the late winter or early spring.

(Code 1988, § 20-2.07; Code 1996, § 13-312)

## Lift Up Lindsborg! wrap up

*Lift Up Lindsborg!* (LUL!) wrapped up a great sophomore year by working on 10 projects. Here's a breakdown of LUL!

- 13 applicants total applied for options in the *Lift Up Lindsborg!* program.
- By the chosen deadline, Oct. 2, seven of the 10 projects were finished.
- Two projects were bumped to 2024 due to some complications and one was abandoned.
- Total Budgeted for LUL!: \$30,000
- Total Spent on LUL!: \$26,948.04
- Classic LUL! Program Cost: \$13,703.00
- Matching LUL! Program Cost: \$8,283.60

Out of the 13, 10 applicants were chosen by the *Lift Up Lindsborg!* Committee. Two applicants were chosen for the Classic Program and the other eight were chosen for the Matching Program.

After completion of this year, Milton and Ryan (BC Pathways Intern) brainstormed ideas to break up the year for certain projects and communicate with applicants on timelines and information need. Overall, with those involved, *Lift up Lindsborg!* was a success. More volunteers are needed to help with lawn maintenance projects; if anyone is interested, please feel free to contact the Community Development office at [comdevdirector@lindsborgcity.org](mailto:comdevdirector@lindsborgcity.org).

*Pictured: One of the completed houses from this round of projects.*

To learn more about the *Lift Up Lindsborg!* program, from applying to volunteering, contact Milton at 785-227-3355 or [comdevdirector@lindsborgcity.org](mailto:comdevdirector@lindsborgcity.org).

## Bikes are rolling: Lindsborg is enjoying the ride

The numbers don't lie - Lindsborg loves to ride! The KANcycle bikeshare program debuted earlier this year and the rider stats show it's been a huge success! Month after month shows Lindsborg with the most riders in the North Central Kansas district (which also includes Salina) and there's no sign of slowing down anytime soon. The average number of riders over the last three months for Lindsborg is 188 per month. Compare that to the next busiest community in our region, Salina, which sits at 95 riders per month.

We appreciate everyone who has help make this program and success and we hope you keep enjoying the ride!

## Snow removal policies

Significant snowfall does not seem to play much of a role in our normal winters anymore (knock on wood). Sometimes there are indicators which lead us to think that this could be the year, but then it doesn't snow. If it is one of those years where it does snow, it is good to review policies for snow removal. First, getting leaves cleaned up in the fall is very important to keep the gutters and storm drains clear. This way any moisture that does fall in the winter can adequately find its way into the stormwater system. If we receive significant snowfall, below are the policies for when the city will act, emergency routes and downtown snow removal.

### When does the city begin clearing snow?

- If the correct conditions are met with the forecast, city crews will be out pretreating the streets with brine solution before the snow falls.
- If the forecast for snow is two inches or less, no plowing will be done. If necessary, sanding will begin when the snow has finished.
- If the forecast for snow is two to four inches, plowing will begin when the snow has finished.
- If the forecast for snow is greater than four inches, plowing will begin at the three-inch depth and continue as needed.
- If two inches of sleet fall, plowing will begin.

### The following streets are the Emergency Snow Removal Routes for Lindsborg:

These receive top priority, are cleaned first, and will be maintained more frequently during significant snow events.

- Main St. from Sheridan St. to K-4
- Harrison/Cole from Swensson St. to K-4
- K-4 from Harrison/Cole to Coronado Ave.
- Lincoln St. from Harrison/Cole to Coronado Ave.

### Following Emergency Routes, areas to and around the following locations will be cleared:

- Hospital
- Downtown
- High School area (depending on the time of day it snows)
- Bethany Home properties
- Soderstrom Elementary (depending on the time of day it snows)
- Bethany College
- Then all remaining north and south streets
- Then all remaining east and west streets

*continued on pg. 6*

continued from pg. 5

## Downtown snow removal is required within 12 hours of the end of the event.

- When cleaning snow from sidewalks, it is best to pile what you can around the trees. Any excess snow should be piled in an open area that provides at least 8 feet of clearance.
- Snow blowers may blow snow into the street only if the sidewalks are cleared prior to the downtown area being bladed.
- Following heavy snow, crews will only blade the downtown area one time so that we can concentrate on the residential areas.
- Downtown area snow will be bladed to the center of the street. Removal depends on traffic conditions. Light traffic will allow us to remove the snow during the day. If heavy traffic is observed, we will schedule snow removal for either late night or early morning hours.

## Removal of snow for residential sidewalks:

- City Code requires any owner and/or the occupant of any lots abutting upon any sidewalks to remove any accumulated snow or ice within 12 hours from the time the event ends. If the event ends during the nighttime, removal must be made within 12 hours after sunrise on the following day.

City crews make plans on how to handle snow events based on forecasts. We are all aware of how hit- and-miss a weather forecast can be. It seems like there are times that significant snow is forecast, and we receive little to none. There are other times when a dusting is called for and we receive several inches. Crews do their best to prepare for what is forecast and looks most likely, but in the end, they must simply react to what mother nature delivers.

## Space heaters – friend or foe?

It is easy to think that the use of a small space heater can help save on your electric bill by allowing you to turn the heat for the house furnace down and run a couple of extra space heaters in the areas you need. You may want to reanalyze that thought. The average small space heater has a maximum output of 1500 watts. That is equal to 1.5 kilowatts of electricity, which means for each hour that the space heater is running, you are using 1.5 kWh of electricity. Say the cost of electricity is \$0.10 per kWh; running just one space heater for an hour costs you \$0.15. That does not sound too bad, does it? Now multiply that by \$0.15 by 24 hours in a day and by 30 days in a month. That small innocent little space heater has now cost you \$108, which is on top of all the other electricity you use. Even if you are running that space heater at a lower setting it can still cost you \$50 a month and if you are running multiple space heaters the usage can add up quickly. Another way to look at how much electricity 1500 watts equals is like leaving 25 60-watt incandescent light bulbs on all the time.

If your electricity bills are higher in the winter than you think they should be and you are using space heaters, you may want to rethink how much you are using those units. They may be small, but they are not very energy efficient and can cost you quite a bit of money each month. If you do use a space heater, give some thought to how much and what settings you are using while it is on. Space heaters do work to provide heat, they are however a big user of electricity (and often a fire hazard when left unattended).

## Speed limit change on Wells Fargo Road

The Lindsborg Police Department received multiple speed concerns from residents and a City Council member regarding the speed of vehicles along Wells Fargo Rd. between 14<sup>th</sup> Ave. and Emerald Dr. That portion of Wells Fargo Rd. was annexed into the city limits when the Stockholm Estates and the Lindsborg Child Development Center projects were being developed.

The speed limit on that stretch of Wells Fargo should have been changed then to reflect the designated speed limit on streets within Lindsborg. Speed limit signs have now been changed and moved to reflect the new speed limit on that portion of Wells Fargo Rd.

The Lindsborg Police Department has been working with the community to adjust to the new speed limit through social media posts, education enforcement stops (warnings), and by providing an update on the speed limit change at the Oct. 2, 2023, City of Lindsborg Council Meeting.

# Legislative Changes to the Standard Traffic Ordinance

The Legislature made several changes to statutes affecting the Standard Traffic Ordinance (STO) and the Uniform Public Offense Code (UPOC). This article describes those changes.

## Changes to the STO

### Section 163. *Additional Lighting Equipment.*

HB 2147, Section 6, allows motor vehicles to be equipped with any type of ground effect lighting, except the lights cannot be any shade of red, flash, or be visible. Previously, motor vehicles could be equipped only with neon ground effect lighting.

### Section 179. *Spilling Loads on Highways Prohibited.*

HB 2160 exempts trucks, tractors, and trailers hauling cotton bales from this provision when certain requirements are met.

### Section 194. *Driving While License Canceled, Suspended or Revoked; Penalty.*

HB 2216 removes the mandatory term of confinement for first- and second-time offenders driving on a suspended license if the offender's license was suspended because of a failure to pay a fine or failure to appear. The bill also requires a minimum fine of \$100 for a violation.

## Changes to the UPOC

### Section 1.1. *Definitions.*

The League added definitions for airbag, counterfeit supplemental restraint system component, nonfunctional airbag, and supplemental restraint system that apply to the new offense concerning counterfeit airbags found in HB 2147, Section 2. The League amended the definition of wildlife based on changes in HB 2332, Section 23. The League also discovered some definitions that needed to be added or amended. Definitions for hard cider, maliciously, and sexually explicit conduct were added. Definitions for temporary permit and wine were amended. The definitions for health care facility and health care provider moved to Section 6.7., because they apply specifically to criminal trespass and the new offense concerning battery against a health care provider contains a different definition for health care providers.

### Section 3.2.3. *Battery Against a Health Care Provider.*

This is a new offense approved by the Legislature in SB 174, Section 1, making it a Class A nonperson violation to commit a battery against a healthcare provider while the provider is performing their job duties.

### Section 3.6. *Unlawful Restraint.*

A League member requested the League mirror state law and amend this provision to exempt all law enforcement of the state and any political subdivision of the state from this offense. Previously, the exemption in the UPOC applied only to city law enforcement. The League amended the provision based on this request.

### Section 3.8. *Violation of Protection from Abuse Order.*

While reviewing SB 217, which included amendments to statutes concerning protection orders, the League noticed K.S.A. 60-3107 does not contain the word "or" between battery and domestic battery. The League deleted the word "or" from this part of the provision to match state law.

*continued on pg. 9*

*continued from pg. 8*

### Section 3.13. *Stalking.*

SB 217, Section 1 amended the definition of course of conduct to include “utilizing any electronic tracking system or acquiring tracking information to determine the targeted person’s location, movement or travel patterns.” The bill also changed the format of the definition for immediate family.

### Section 5.5. *Watercraft; Lifesaving Devices Requires, Section 10.5. Unlawful Discharge of a Firearm, and Section 11.3. Commercialization of Wildlife.*

The League updated these sections to reflect the Kansas Department of Wildlife, Parks and Tourism name change to the Kansas Department of Wildlife and Parks. Also, section 5.5 was updated to reflect that the offense is a Class C nonperson violation.

### Section 5.6. *Purchase or Possession of Cigarettes or Tobacco Products by a Minor.*

HB 2269, Section 3, raises the minimum age from 18 to 21 to purchase, attempt to purchase, possess, or attempt to possess cigarettes, electronic cigarettes, or tobacco products.

### Section 6.7. *Criminal Trespass.*

The League moved the definitions for health care facility and health care provider from the definitions section to this section, because they specifically apply to this offense and, with the addition of the battery against a health care provider offense, the UPOC now contains two different health care provider definitions.

### Section 6.22. *Criminal Hunting.*

HB 2332, Section 19 clarifies that convictions of this offense are nonperson violations.

### Section 6.27. *Counterfeit Airbag Violation.*

This is a new offense approved by the Legislature in HB 2147, Section 2, making it a Class A nonperson violation to “knowingly or intentionally manufacture, import, distribute, sell, offer for sale, install or reinstall a device intended to replace a supplemental restraint system component . . .”

### Section 7.2. *Interference with Law Enforcement.*

SB 174, Section 5, added language to this offense to include: “Knowingly fleeing from a law enforcement officer, other than fleeing by operation of a motor vehicle, when the law enforcement has: (A) Reason to stop the person under K.S.A. 22-2402, and amendments thereto; and (B) given the person visual or audible signal to stop.”

### Section 10.30. *Operating an Aircraft Under the Influence.*

The League updated this provision to provide that this offense is a Class A violation.

### Section 11.11. *Cruelty to Animals.*

The League amended subsection (a)(4) to mirror state law. The subsection now states, “Knowingly but not maliciously killing or injuring any animal.” Maliciously was added to the definitions section of the UPOC to reflect this change.

The City of Lindsborg retains the modification to Section 9.1 regarding the penalty for Disorderly Conduct adopted last year and adopts a modification to Criminal Littering that accounts for depositing unauthorized materials on City property, per Ordinance No. 5448 as adopted on Sept. 5, 2023.

## Fall sports rewind

We had a great fall sports season that took place from Aug. 28 to Sept. 30. Fall sports included volleyball grades 3<sup>rd</sup>-6<sup>th</sup> and flag football for grades 1<sup>st</sup>-4<sup>th</sup>.

Lindsborg Recreation continues to play in the Mid Kansas League (MKL) against surrounding towns including Burrton, Halstead, Newton, Haven, Canton-Galva, Hesston, Inman, Lyons, Moundridge, and Sedgwick. By playing in this league, we can begin teaching our younger generation knowledge about sports as well as skills such as teamwork, courage, and sportsmanship. This year we had over 40 kids participate in flag football and over 50 participants for volleyball.

Thank you to the coaches, parents, officials, and others who help make the games run smoothly!

## What's On Tap

Public Works Director  
**25 YEARS**

**MATT LLOYD**  
Electric Lineman  
**15 YEARS**

**EMILE GALLANT**  
City Council  
**10 YEARS**

## 2023 Staff Achievements

### Chris Lindholm

Public Works Director Chris Lindholm, who has served the city for more than 25 years, was recently appointed to the Kansas Municipal Energy Agency Executive Board and the Kansas Municipal Utilities Distributed Generation Task Force.

### Bryan Giesen

Water Operator Bryan Giesen achieved all the requirements to earn his title of Certified Aquatics Facility Operator (AFO) to oversee the Lindsborg Community Pool. Additionally, Bryan has achieved his Water Operator II licensing through KDHE.

### Mike Adams

Officer Mike Adams with the Lindsborg Police Department completed School Resource Officer (SRO) certification and has been assigned to the Smoky Valley School District.

### David Hay and TJ Massa

Two volunteer firefighters, David Hay and Thomas "TJ" Massa, completed Firefighter 1 IFSAC certification through Hutchinson Community College. To receive this status, they tested on fire apparatus, performed vehicle extrication, participated in live interior and exterior fire evolutions, night drills, teamwork, and practiced safety and accountability.

### Robin Droegemeier, Maci Claycamp, Diane Reece, Lisa Johnson, and Julia Duell

Customer service staff completed an eight-week program through the McPherson County Extension Office. The program focused on highlighting the training staff already has, while adding new skills and tools in helping communicate more effectively with other staff in positive ways.
